## Why Healthain?

Healthier workforce means reduced absenteeism, lower employee turnover, higher employee performance and increase in engagement.

Every dollar invested in wellness programs saves \$3 in healthcare costs.

Active and healthy employees provide 66% higher performance and work better.

Companies with implemented wellness program reported 50% decreased absenteeism.

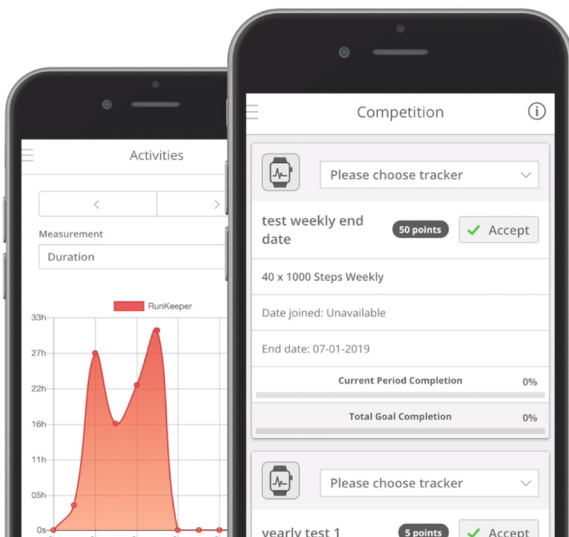

### Motivate employees to meet personal and company goals

- Help employees build better and healthier habits, encourage them to be active, run, ride a bike, lose weight, have enough sleep, etc.
- Motivate and incentivize the workforce to set up personal goals and achieve success every day.
- Track their activity, recognize progress and show that the company cares about their health.

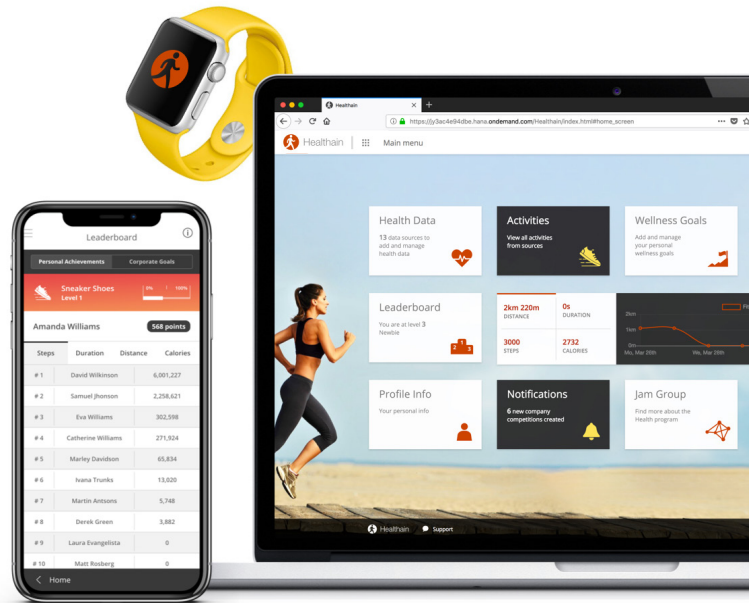

### Ignite workforce to join corporate initiatives

- Create company challenges and events, motivate employees to participate by incentives.
- Create a positive company culture and promote teamwork.
- Promote wellbeing as an everyday lifestyle.

## Build fun workplace experience through built-in gamification

- Engage your workforce directly from SAP SuccessFactors Launchpad.
- Graphics visualization of day-to-day progress and company leaderboard inspires to pursue an active lifestyle and engage more.

## Advantages
